OVERALL EFFECTIVENESS OF THE SCHOOL	1
<p>Sacred Heart Catholic Primary School provides an excellent Catholic education for its pupils. The outcomes for all pupils are at least good and exceptional for some.</p> <p>For Leaders and Managers Gospel values are at the heart of all they seeks to do; exemplified in the school's Code of Conduct and lived out in the daily life of the school.</p> <p>The school has successfully addressed all areas for improvement identified in the previous inspection of Religious Education. The Self Evaluation document and Action Plan clearly identify the strategic direction for the school, leaving it well placed to achieve its goals.</p> <p><u>What the school could do to improve further</u></p> <p>Continuing Professional Development for staff and leaders and managers is a major focus in the implementation of a new Religious Education scheme. The school needs to plan to:</p> <ul style="list-style-type: none"> • Embed the work of the recently formed Religious Education team in school policy and practice • Continue to develop assessment by ensuring that robust systems for tracking and monitoring are in place and that the impact of such systems is analysed and evaluated. 	

PUPILS	1
<p>Pupils make at least good progress in each key stage with some making exceptional progress. Written work and their confident use of religious language show that pupils have a growing understanding of their faith and that of others. They are well aware of the importance of their spiritual life to their development as thoughtful, caring individuals.</p> <p>Attainment is high. For 2010-2011, at the end of key stage 1, a minority of pupils (16%) attained level 3. By the end of key stage 2, 42% of pupils attained level 5 at and almost all others attained level 4. For the current year, standards are predicted to rise slightly.</p> <p>In lessons pupils concentrated well and responded positively to a wide variety of tasks. They showed commitment to succeeding and were proud of the work they produced.</p> <p>Pupils behaved very well in lessons, during worship time and as they moved around the school, treating other pupils and adults with respect.</p> <p>Pupils participated well in acts of worship; they showed confidence and enthusiasm in leading prayer and reflections. The pupils expressed themselves with confidence. All were engaged and interested, joining in enthusiastically with singing and praying reverently. Their responses to worship, prayer and their Religious Education lessons help them to become confident, thoughtful individuals who demonstrate increasing understanding of the importance of the Catholic tradition of which they are part.</p> <p>Pupils regularly refer to the school's Code of Conduct and how it helps everyone to "follow Jesus in every way". Parents value the way in which the school helps pupils develop into caring, responsible individuals. Pupils undertake a wide range of community activities; these help them to develop a growing understanding of the Church's mission and of the needs of others in their community and in the wider world. They consider that teachers and governors listen to their views and respond to their suggestions.</p>	

PROVISION	1
------------------	----------

The teaching of Religious Education is highly effective; building successfully on pupils' prior learning and understanding. Lessons are well planned and take account of the differing needs and abilities of pupils. Lessons engage and inspire pupils to extend their thinking through the use of a wide range of teaching strategies, including teacher voice, pupil partners and resources including displays with specific, targeted media and programs in ICT to optimise learning. Lessons observed began with a quiet reflection or activity, which set the tone of the lesson.

Teachers used high level questioning and their good subject knowledge ensured that pupils made good progress and concentrated extremely well; a 'buzz' of activity existed and meaningful discussions took place between pupils and pupils and adults in the class. Adults were deployed very effectively to support individual or groups of pupils.

Positive, focused marking is used to develop pupils' thinking as well as to celebrate pupils' achievements. Assessment is effectively used throughout the school and pupils are involved in evaluating their own and others' work. Current methods and materials are being revised, including the way in which baseline assessment is used, to ensure that the new Religious Education scheme has a rigorous assessment programme,

Collective Worship observed was of high quality, with pupils leading or being a key part of the celebration. Lessons also included opportunities for prayer and reflection. This ensures that worship has a central place in the life of the school and reflects a deep understanding of the mission of the Church.

LEADERS AND MANAGERS	1
-----------------------------	----------

The leaders of Sacred Heart School are deeply committed to living their Mission Statement. They see the Catholic mission of the school as a priority.

Governors and the Senior Leadership Team have a very clear understanding of the current process of change. This is explicit in the Religious Education Action plan and in the commitment they have made to the development of a team to lead Religious Education.

The ethos and identity of the school are very important. Pupils' spiritual and moral development is nurtured across the curriculum and in additional activities; Religious Education is not seen only as a discrete subject, the living love of Jesus permeates everything they do.

Governors feel informed about pupils' progress and attainment; they are welcome in school and are regularly invited to attend training days. Governors feel confident they provide high levels of challenge to ensure the school is held accountable for its Religious Education.

Leaders and managers have a clear plan for rigorous monitoring of all areas of the school's religious life and in ensuring that statutory and canonical responsibilities are met. They seek the views of pupils and parents and this helps to inform strategic plans to support and develop the school's mission. The school intends to promote even more involvement with parents and to include grandparents in this.

Leaders and managers engage the school in a variety of effective partnership activities to ensure pupils' good and often outstanding achievements. The school promotes inclusive practice and an attitude of concern and respect for others.
